

G R A I G

GRAIG SHIP MANAGEMENT LIMITED

Due to our continued expansion in ship management
and marine consultancy services
applications are invited for the following position

TECHNICAL SUPERINTENDENT

This is a senior technical role and applicants should hold a Class 1 Certificate of Competency (Motor) and have spent several years in the capacity of seagoing chief engineer as well as previous superintendency experience ashore.

The successful candidate will work in the company's modern Cardiff office working closely with the technical team with responsibility for the technical management of nine vessels, reporting directly to the chief executive officer. The company has an active and growing marine consultancy division which the candidate will also be expected to support. Computer literacy, budgetary control experience and team management skills together with knowledge and experience of quality assurance systems is desirable.

Salary: Overall package circa £55k commensurate with experience

Candidates must have EU working Entitlements

Please apply, enclosing your CV, to
