## **“A GREEN DAY WITH GRAIG”**

Green Life, Green Shipping

On the afternoon of April 19th 2013, the Graig Group successfully hosted ‘A Green Day’ event at The Shanghai Yacht Club & Resort on Dianshan Lake. The aim of the event was to gather together friends from the shipping industry to share experiences and enjoy themselves in the beautiful natural surroundings.

The guests were invited to sail on a variety of boats and were also able to take part in other water sport events. Networking, sailing, canoeing, golfing and stimulating conversation were the main activities of the Green Day event. Later on in the afternoon, a barbeque party with lucky draw contests ensured the fun and enjoyment lasted well into the evening.

Unlike most seminars and lectures that take place at 5\* hotels, the Graig Green Day event was unique in offering its guests a range of outdoor activities in a relaxing and natural environment where they could enjoy the company of our staff and meet new friends. The opportunity was also taken to showcase the range of Graig’s services and introduce new members of staff.

The following pictures were taken during the event - we hope you find them interesting to look at.
